#### «About myself»

From the very start I should say that it is not an easy thing to speak about myself as it is hard to have a look at yourself from aside, but at the same time who knows you better than you yourself do?

I am a girl of sixteen. When I look at myself in the mirror I see a blond girl with short straight hair, dark eyes and a slender figure. As to my appearance I'm rather tall and slim. I have never thought I'm a beauty, I wish I were more beautiful. I am neither short nor tall, so I like to wear high-heeled shoes, trousers or jeans. I think that I'm even tempered, rather reserved, calm and modest. But sometimes I can lose my temper and become either angry or sad. I like staying alone and sometimes I retreat into my shell. But at the same time I like my friends, I like to laugh and joke. I have got a sense of humor. It means I understand humor and appreciate it. There are many things in our life I like and some I dislike. I like when everything is OK. Being happy is one way of being wise. I like to study because knowledge is useful sometimes. I'm fond of reading as it gives not only knowledge, but also wonderful moments of joy and pleasure.

I was born on the 25th of April 2006 in Stavropol where I live now together with my parents and my younger sister. My early years, which I remember badly, were typical of a child living in a town. I was born into a family of a teacher and a doctor. I was sent to a kindergarten at the age of three as both my parents were working. As all the children I went to school at the age of six. Here I should say that it was my lucky chance to study for 11 years at the school of fine arts in the town of Stavropol. It turned out to be the best school in our town. There I got a proper training in such subjects as English, Russian, literature and world culture. School for me was not only lessons and learning, I had a lot of friends there. We organized extra class activities such as parties and other social activities. I actively participated in most of them.

I am sociable, so I have got a lot of friends among my schoolmates. I appreciate people's honesty, kindness, sense of justice and intelligence. I don't like when people are rude and aggressive. Very soon I'll pass my final exams at school and after a farewell party at the end of June I'll say goodbye to my teachers who are very well-educated people with broad outlook and deep knowledge of the subjects. I asked myself a lot of times what I wanted to be after I leave school. A few years ago it was difficult to give a definite answer. As years passed I changed my mind several times. But I finally made up my mind what profession I would most like to have in the future. I realized that my strongest desire was to continue specializing in humanities and learn foreign languages in particular. I hope my dream will come true. Finally, the things I hope to achieve in my life are: to have a very successful career, so this year after finishing school I will try to enter the University, to build the house of my dreams and to find someone in my life to share all that with.

**«My Family».**

Our family is neither large nor small. I have a mother, a father and a sister. We all live together in a three-room flat in Moscow. We are an average family. My father Mikhail Andreevich is 50 years old. He is a tall and well-built man with short black hair and grey eyes. He works as an engineer at a big factory. He likes his work and spends most of his time there. By character my father is a quiet man, while my mother is energetic and talkative. My mother's name is Elena Petrovna. She is a teacher of mathematics and plays the piano well. My mother always has a lot of work to do about the house and at school. She is a busy woman and we all help her.

My sister's name is Christina. Like our mother Christina has blue eyes and fair hair. She is a very good-looking girl. Christina is two years younger than me. She is a pupil of the 7th form. She does well at school and gets only good and excellent marks. Mathematics is her favorite subject and she wants to become a banker, as well as I do. Our family is very united. We like to spend time together. In the evenings we watch TV, read books and newspapers, listen to music or just talk about the events of the day. Our parents don't always agree with what we say, but they listen to our opinion. All of us like to spend our weekends in the country. We often go to the village where our grandparents live. They are aged pensioners now, but prefer to live in the country. My great-grandmother is still alive. She lives in my grandmother's family and is always glad to see us. Her health is poor and she asks us to come and see her more often. I also have many other relatives: uncles, aunts, cousins. We are happy when we are together.

##### «My New friends».

My best friend's name is Anna. She is 17 years old and studies with me at the 11th form of a secondary school. She is an ordinary school girl who tries to look up-to-date. I'd like to tell you a few words about her appearance. She is quite tall for her age. She is the second tallest girl in the class. She is slim and good-looking. She has dark hair and big blue eyes with long lashes. She wears a uniform to school and a T-shirt with jeans when she goes for a walk with friends. She tries not to wear short skirts or dresses because she thinks they don't fit her. In terms of appearance, she took after her mother. Her mother is a beautiful woman and she looks rather young in her mid-thirties. She has got long dark hair and big brown eyes. As for Anna's hair, she likes wearing it in ponytails. She likes wearing jewelry or bijouterie but our teacher gets angry, so she simply wears small earrings. Her face is round, she has a straight nose, red lips and thick eyebrows. She doesn't use any make-up in day-to-day life. However, when we have parties or balls she uses some cosmetics and perfumes. Also, she likes changing her hair-do for parties. Текст «A letter from My London Friend»

My family lives in a 9-storey building, which is situated near the city center. There is a nursery, school, several shops and a little restaurant not far from the house. We have an elevator in our communal entrance hall. We live on the seventh floor, that's why we're glad that we needn't to walk up. Our flat is very comfortable and cozy. It has three rooms: my parents' bedroom, my room, a living room. It also includes a kitchen, a hallway and a bathroom.

Our flat is provided with all modern conveniences: cold and hot running water, electricity, central heating, and telephone. A living room is the biggest one in our flat. It has a long table with several chairs round in the middle. To the right of the table, there is a big wall unit with a wardrobe and different shelves. Opposite the table, an occasional table with a TV set on it stands from one side. There is a cozy sofa with two arm chairs from the other side. The floor is covered with a beautiful carpet with patterns. The pictures are hanging on the walls. My parents' bedroom is cozy and spacious. There is a bed with two dressing tables and small lamps on each of them. My room is the smallest one. It's very cozy and bright. It has a desk, an armchair, a wardrobe and a bed. My wooden shelves are overflowed with books, because I like to read. There is also a computer on my desk. Our kitchen is big enough. In the middle there is a dining-table with chairs. Opposite to it, there is a cupboard. In the kitchen there is a big fridge. Our kitchen is well-equipped. It has a toaster, a food processor, a microwave and a coffee maker. We like to spend evenings in our cozy kitchen, to drink tea and talk. I like my flat very much, it is the place, where I feel peaceful.

#### «House of my dream»

Everyone likes dreaming. It helps us to overcome the difficulties of our daily routine. As a rule, people imagine they have a lot of money, their own family, happy family and full social life. I'd like to tell you about the house of my dream. I'd like to have my house abroad. May be in America, in Florida for example because it's rather warm there all year round. I want my house to be near the ocean. I don't want to have it in town, because there is little fresh air and a lot of litter on the streets. I'd like to live there with my husband and my child. I imagine my house has 3 stories. It has a facade with columns and steps up to the front door. There's also a big balcony in my house and there are big windows. Through them you can see a wonderful view. There are lots of palm trees and flowers around the house. And there is nothing better than walking in the shade of these trees and listening to the whisper of waves.

I think it's wonderful to wake up in the morning in such house and see the sun shining through the window and hear the sound of the ocean. As you come through the front door, you would find yourself in a large hall with an open fireplace. One of the doors leads to the living room. This room faces the south, so it's very sunny and you can enjoy a wonderful view of the whole valley. In the middle of this room there's a thick carpet on the floor. We have little furniture in this room. On the left there's a sofa and small table near it, on the right you can see TV set. There are some armchairs in this room. In the living room we spend our evenings chatting with each other and playing with children. Behind the house there is a swimming pool and some plastic lounge chairs. Our house looks peaceful and calm. House of my dream is a beautiful place at any time of the year. In winter it's warm and cosy, and in summer there is so much to do outside.

At half past seven I had my breakfast. I usually have a light breakfast which consists of a cup of coffee or tea and some cheese or sausage sandwiches. After breakfast I left for school.

My school is not far from my house. Usually I walk there. It takes me 10 minutes to get to school.

Yesterday lessons began at 8:30 a. m. and finished at about 3 p. m. Six or seven lessons a day is the ordinary timetable. I didn't have lunch in the school canteen because I took a packed lunch with me. And after classes I stayed at school to play basketball.

When I came home my parents were not at home yet. Usually they work till 6 o'clock p. m. that's why I took my dinner from the fridge and warmed it up myself. After dinner I had a little rest. I read a book and then watched TV for about half an hour and after I talked to my friend over telephone for few minutes.

After that I started doing my homework. It took me about two hours to do my homework.

### City life or country life?

There are plenty of opinions on the choice of lifestyle nowadays. City life and country life have both pros and cons but my choice is the city. I am sure the city is the place where everything is happening. You have lots of job and rest opportunities and you will never get bored with a big variety of cultural activities and events.

It goes without saying that city life offers more work and education opportunities. In spite of high cost of urban living, there are more chances to find a well-paid job and make a successful career. Besides, compared to country life city life is more varied in many aspects: housing, shopping, medicine, entertainment, eating out, playing sports. City life offers more convenience as everything can be easily reached thanks to extensive public transport system.

Yet some people can't stand crowded streets and heavy traffic. They prefer countryside where you are closer to nature, beautiful landscapes and enjoy peace and quiet. In fact, country life has many advantages compared to living in a city. There is less transport and no industry. You can grow and eat organic food. The village community is small but friendly and tight-knit. People help each other.

#### Shopping

Shopping is an opportunity to buy everything what we need, from food to clothes. When we do the shopping we get to know a lot of information about different goods, their prices, quality. We learn to choose products, to spend money rationally. Someone will say that shopping is an original way of spending free time. Someone will say that it's a forced waste of money. Today, shopping is a means of our existence and living.

It's a so called exchange of money for any kinds of goods (from pins to vehicles). Thus, if you want to live in this world shopping is a real necessity for you. Everyone does the shopping: from the poor to a millionaire.

By the way, shopping is a great entertainment too. If you want to relax, shopping is for you. Many girls enjoy shopping and spend the whole day visiting shops and buying things. For them the process of shopping is more important than purchasing. While shopping we talk, with, other people, get experience, get to know many interesting things. But, of course, shopping depends not only on our mood but on our money, too. If you have a lot of money - you can choose what you want if you don't have — you are to be very economical and buy only the things which are essential.

#### Ways of shopping

Nowadays there are different. Years ago people went to the shops and bought everything they needed. With the development of progress shopping began to change and now you can purchase things on the Internet. To attract customers shops provide various services: free home delivery and installation of some gadgets, money-back guarantee, buy and win coupons, repair services. They sell their goods on credit and what not. How inventive people may be in their thirst to get to somebody else's money! While speaking about shopping I can't but mention a very specific phenomenon of our life - advertising. We have to listen to ads and watch commercials at least hundred times a day. It penetrates to our minds and makes us wear some kind of clothes and shoes, it insists on our chewing all the time, cleaning our teeth with Colgate after we drink Coffee Nescafe.

As there are many different goods, so there are many shops which sell this or that kind of products. Here's a short guide of different kinds of shops. Department stores have many different departments: haberdashery, headwear, perfumery, stationery, leather goods, sports goods, china and glass, fabrics, linen, readymade men's and ladies' departments. In the ladies' clothing department you can choose dresses, skirts, blouses, coats, underwear. In the men's clothing department one can buy suits, sweaters, cardigans, pullovers, trousers and woolen jackets. We go to the dairy shop to buy milk, cream, cheese. Tinned fish, caviar, crabs, lobsters, and different sorts of fish — carp, cod, salmon, trout, mackerel — can be found at the fishmonger's. Sugar, semolina, buckwheat, rice, coffee, spaghetti, noodles are sold at the grocer's. At the greengrocer's we can find all sorts of vegetables and fruit. Well, all this stuff you may buy at a market place and very often it is cheaper and of better quality. There are also big supermarkets where you can buy everything. Such shops are very universal and well-stocked. Moreover, we can order goods by telephone and with the help of different catalogues and fashion magazines.

2. Read, translate and explain difference between *at the shop* and *in the shop*:

A: Where are you now?

B: I'm **at** the baker's shop.

A: Does he have any brown bread?

B: I don't know, I'm still in my car. I'll tell you when I'm **in** the shop... [20 seconds later]... OK, I'm **in** the shop now, and he's got brown bread and white.

3. Read, translate and answer the questions:

1. In the vegetable store: How much should I pay if I bought three kg of potatoes at forty rubles per kilo?
2. In the cafe: How much change will they give me if I had five \$ and coffee cost three dollars and fifty cents?
3. I want to buy new laptop for eighty thousand rubles. How long I should work if my salary is twenty thousand rubles? ( My mum supports me, give me money for food etc.)
4. In a grocery store:
 

Buyer: How much do these candies cost?

Salesman: four hundred sixty rubles per kilo.

Buyer: Please, weight me half a kilo.

Salesman: Here you are. Will that be all?

Buyer: Yes. How much is it?

Salesman: \_\_\_\_\_

### Ways of cooking

I like cooking, especially for my family, relatives and friends when they come to visit me. Usually I cook well-known popular dishes with meat, fish and vegetables. But sometimes I want to surprise my guests with something new and I search the Internet for different dishes. I like to experiment.

But, firstly, before start cooking we need to have kitchen, of course, and all cooking outfit, like pan, saucepan, frying pan, bowl, knife, spoon, oven, baking pan, etc.

In my fridge I can found all ingredients what I need or maybe I make a shopping list and will go to supermarket for necessary products.

I like all of them on breakfast, depending on the mood :)

**International cuisine**

Every one like travel and for sure everyone tries local dishes while traveling. But some of them have already become so popular that they are loved, recognized and cooked in all parts of the world. I want to tell you about some.

1. Pizza is a dish of Italian origin consisting of a usually round, flat base of leavened wheat-based dough topped with tomatoes, cheese, and often various other ingredients (such as various types

of sausage, anchovies, mushrooms, onions, olives, vegetables, meat, ham, etc.), which is then baked at a high temperature, traditionally in a wood-fired oven. A person who makes pizza is known as a pizzaiolo. In Italy, pizza served in a restaurant is presented unsliced, and is eaten with the use of a knife and fork. In casual settings, however, it is cut into wedges to be eaten while held in the hand.

2. When Japan wants to build something right, it builds it really right. Brand giants such as Toyota, Nintendo, Sony, Nikon and Yamaha may have been created by people fueled by nothing more complicated than raw fish and rice, but it's how the fish and rice is put together that makes this a global first-date favorite. The Japanese don't live practically forever for no reason -- they want to keep eating this stuff. So, Sushi is traditionally made with medium-grain white rice, though it can be prepared with brown rice or short-grain rice. It is very often prepared with seafood, such as squid, eel, yellowtail, salmon, tuna or imitation crab meat. Many types of sushi are vegetarian. It is often served with pickled ginger, wasabi, and soy sauce.

3. Pekin Duck, China offers one of Beijing's most memorable dining experiences. The maltose-syrup glaze coating the skin is the secret. Slow roasted in an oven, the crispy, syrup-coated skin is so good that authentic eateries will serve more skin than meat, and bring it with pancakes, onions and hoisin or sweet bean sauce. Other than flying or floating, this is the only way you want your duck.

What kind of international food do you know?

«Sports».

A lot of people all over the world are interested in sport. Sport helps people to stay in good shape, keeps them fit, healthy and makes them more organized and better disciplined in their daily activities. We have always paid great attention to sport in our schools, colleges and universities. You can hardly find a school without a gym or a sport ground.

Every city and town has a few stadiums or swimming pools where local competitions are usually held. It's been a tradition in Russia to divide sport into professional and amateur (lover, beginner). There are different sporting societies and clubs in Russia. Many of them take part in different tournaments and are known all over the world.

A great number of world records have been set by Russian sportsmen: gymnasts, weightlifters, tennis players, swimmers, figure skaters, runners, high jumpers. Our sportsmen also participate in the Olympic games and always win a lot of gold, silver and bronze medals.

The Olympic Games have a very long history. They began in 777 BC in Greece and took place every four years for nearly twelve centuries at Olympia. They included many different kinds of sports: running, boxing, wrestling, etc. All the cities in Greece sent their best athletes to Olympia to compete in the Games. For the period of the Games all the wars stopped.

So the Olympic Games became the symbol of peace and friendship. In 394 AD the Games were abolished and were not renewed until many centuries later. In 1894, a Frenchman, Baron Pierre de Coubertin, addressed all the sports governing bodies and pointed out the significance of sports and its educational value. Two years later the first modern Olympic Games took place.

Of course, the competitions were held in Greece to symbolize the continuation of the centuries-old tradition. In 1896 the International Olympic Committee was set up. It is the central policymaking body of the Olympic movement. It is formed by the representatives of all countries which take part in the Olympic Games. The International Olympic Committee decides upon the program of the games, the number of the participants and the city-host for the Games.

Over one hundred and fifty countries are represented in the International Olympic Committee now. Besides, each country has its National Olympic Committee. Summer and Winter Games are held separately. There are always several cities wishing to host the Games.

«Tourists in Russia»

Millions of people all over the world are fond of travelling. They travel to see other countries and continents, to discover different ways of life, to meet different people and to practice foreign languages. It goes without saying that travelling broadens the mind. While travelling we can see and learn a lot of things that we can never learn staying at home and watching TV or reading books. That's why a lot of foreign people come to Russia to get acquainted with Russian culture, with Russian customs and traditions. Russia has always been a country of mystery attractive for foreigners. Tourists like to visit old Russian towns and cities famous for their ancient architecture. They are especially attracted by Russian orthodox cathedrals, churches and monasteries. One of the most interesting old cities in Russia is Novgorod, or Novgorod the Great, as it was called in the old times. It is a treasury of architecture, painting and applied art created over the 11th to 17th centuries. Now Novgorod has expanded far beyond its former limits. It is an important industrial and cultural centre, located on the busy highway linking Moscow and St. Petersburg.

There is a lot to see in Russia, but first of all foreign tourists visit the capital of our country, Moscow, its political, economic, commercial and cultural centre. They dream of visiting Red Square, which is called the heart of Moscow. Perhaps, the most ancient monument of Red Square is St. Basil's Cathedral. With its nine beautifully painted cupolas, it is a real masterpiece of ancient Russian architecture.

If you come to Moscow for the first time, you should by all means visit the Kremlin, which is very impressive. On the territory of the Kremlin you can see old cathedrals, the Bell Tower of Ivan the Great, the State Kremlin Palace, the Tsar Cannon and the Tsar Bell, the biggest cannon and bell in the world. The tallest Kremlin tower, the Spasskaya Tower, has become the symbol of the country.

There are a lot of other interesting towns and cities in Russia, which are all worth visiting.

**Russian Federation**

Russia, country that stretches over a vast expanse of eastern Europe and northern Asia. Once the preeminent republic of the Union of Soviet Socialist Republics (U.S.S.R.; commonly known as the Soviet Union), Russia became an independent country after the dissolution of the Soviet Union in December 1991.

Russia is a land of superlatives. By far the world's largest country, it covers nearly twice the territory of Canada, the second largest. It's a bit more than seventeen million square kilometers by area.

It extends across the whole of northern Asia and the eastern third of Europe, spanning 11 time zones and incorporating a great range of environments and landforms, from deserts to semiarid steppes to deep forests and Arctic tundra. Russia contains Europe's longest river, the Volga, and its largest lake, Ladoga. Russia also is home to the world's deepest lake, Baikal, and the country recorded the world's lowest temperature outside the North and South poles.

The inhabitants of Russia are quite diverse. Most are ethnic Russians, but there also are more than 120 other ethnic groups present, speaking many languages and following disparate religious and cultural traditions.

Most of the Russian population is concentrated in the European portion of the country, especially in the fertile region surrounding Moscow, the capital. Moscow and St. Petersburg (formerly Leningrad) are the two most important cultural and financial centers in Russia and are among the most picturesque cities in the world.

Russians are also populous in Asia, however; beginning in the 17th century, and particularly pronounced throughout much of the 20th century, a steady flow of ethnic Russians and Russian-speaking people moved eastward into Siberia, where cities such as Vladivostok and Irkutsk now flourish.

Russia's climate is extreme, with terrible winters that have several times famously saved the country from foreign invaders. Although the climate adds a layer of difficulty to daily life, the land is a generous source of crops and materials, including vast reserves of oil, gas, and precious metals.

Russia can boast a long tradition of excellence in every aspect of the arts and sciences. Prerevolutionary Russian society produced the writings and music of such giants of world culture as Anton Chekhov, Aleksandr Pushkin, Leo Tolstoy, Nikolay Gogol, Fyodor Dostoyevsky, and Pyotr Ilyich Tchaikovsky. The 1917 revolution and the changes it brought were reflected in the works of such noted figures as the novelists Maxim Gorky, Boris Pasternak, and Aleksandr Solzhenitsyn and the composers Dmitry Shostakovich and Sergey Prokofiev. At Soviet and post-communist eras also were many interesting and well known persons such as the poets Vladimir Mayakovsky and Anna Akhmatova while ushering in new talents such as the novelist Victor Pelevin and many others.

«Weather and climate»

Every season is wonderful in its own way. In spring the air is refreshing, the trees are in blossom, the ground is covered with the first tender flowers. The birds start singing songs. In summer it can be really dry and stuffy, there are thunders and lightnings during the heavy showers. People go sunbathing, fishing and sailing and enjoy all kinds of fruits and berries. In autumn the trees turn golden, it often rains cats and dogs and it's quite muddy. The sky is overcast with grey clouds, sometimes it's foggy and chilly and the days become shorter. In winter the snow covers the ground, the air is frosty, the roads are slippery. It is mainly freezing and there are periods of severe colds and heavy snowfalls. The temperature can fall down to 35 degrees below zero.

I prefer not to complain about the weather but generally I enjoy mild and calm weather with a moderate breeze. I don't quite like damp and gloomy weather and it's hard for me to stand windy or hot summer days with mosquitoes and flies and oppressive heat. But so many people, so many minds.

Our country is so huge and the weather is not the same in different parts of Russia. It depends on the geographical position and the type of climate. We must admit that the climate has changed much due to global warming and winters have become much warmer. It looks rather strange and disappointing when there is little snow in winter and sometimes it even sleet or drizzles.

Frankly speaking, I don't trust our misleading weather forecasts as they don't come true as a rule. The weather is changeable and it is a thing that is beyond us, so it's better to keep an umbrella in your bag all the year round.

#### Moscow. Recommendations to the tourists

Moscow is the capital of Russia, the capital of the former USSR and most populous city in Russia. Although little known, Moscow is the largest city in Europe with about 15 millions of people! Moscow is also the northernmost and coldest megacity and metropolis on Earth. Can you imagine that 15 million Russians live in the place with only 4 months of summer?

Officially, Moscow was founded at 1147, but recently archaeologists found that the city can be more than 1000 years old. Moscow history is very complicated. Moscow withstood numerous internal conflicts, control by the 'Golden Horde', the 'Plague', the 'Great Feudal War', numerous fires, Polish occupation, another new plague, French invasion of 1812 and whole 20th century.

Moscow is situated on the Moskva River so it is also Europe's most populated inland city. Its location was never something special - forests and mid-sized Moscow river - but nothing prevented it from becoming the capital of the largest country. Nowadays Moscow is a really big modern city with its size reaching 40 km width and 50 km length.

Despite the climate and location, Moscow is rich and bustling; it has one of the world's largest urban economies. The city is really expensive (but Zurich is far worse...), but it's worth it! Moscow's architecture is world-renowned. Elegant onion domes of medieval churches, Stalin's monumental buildings, plus modern architecture combine in an amazing mixture of epochs. During your Russian vacations you can spend a week walking around the largest avenues and smaller city streets and always run into something new. However, many foreigners come here and still do not know what to expect from the Russian Capital.

We recommend spending the first day of your Russian vacations wandering around Red Square. There are a lot of museums, churches and other sights to see nearby. You can easily walk from one to another while experiencing the city.

For the second and third days we recommend that you visit less popular landmarks of the Russian Capital. There are a lot of options depending on your wishes. If you are interested in Soviet Moscow, a good choice is to visit Victory Park, Sparrow Hills and Stalin's skyscrapers. Having a tour guide is perfect for those who want to learn more about the former USSR times and its impact on modern Russia. Sometimes it is better to take a minivan tour which can save both your time, in case of right itinerary, and your morale, in case of bad weather.

If you have more than 3 days, we recommend seeing the countryside because Real Russia is not Moscow at all. Sometimes you just need to move only 50 km from Moscow to see authentic towns and villages. Golden Ring cities are perfect for those who prefer picturesque small towns full of medieval architecture. Vladimir and Suzdal tour is one of the best options in this case.

We recommend the Dacha Ecotour if you want to see rural landscapes and learn more about keeping households and farming in Russian countryside. Russian countryside tour is perfect if you are continuing on to St. Petersburg because the tour's final destination (Tver' town) is only 3 hours from St. Petersburg by high speed train.

The United Kingdom of Great Britain and Northern Ireland (the UK).

The United Kingdom of Great Britain and Northern Ireland (the UK) occupies the British Isles and consists of 4 parts: England, Wales, Scotland and Northern Ireland. The country has the population of 60 million people within the land area of 244 thousand square kilometers. The isles are washed by the Atlantic Ocean in the north and in the west and by the English Channel in the south. The UK is separated from continental Europe by the North Sea. Great Britain is separated from Northern Ireland by the Irish Sea and the North Channel.

There are many beautiful lakes and mountains in Scotland and England. The highest point in the Highlands is Ben Nevis (1 340 metres). The longest river flows in England, it is the Severn. The main attraction in the north of England is the Lake District. Thanks to the warm waters of Gulf Stream the island is very green and the British climate is mild. Local summers are rather hot and winters are not cold. As the weather is very changeable in Britain, it is the favourite topic for discussion with the British.

The capital of Great Britain is London. It stands on the Thames river. The country is a constitutional monarchy and officially the Queen is the Head of state. But it is ruled by the Prime Minister and the government. The legislative body is the Parliament which consists of the House of Lords and the House of Commons.

The UK is a highly developed industrial state. The chief industries are shipbuilding, fishing and mining, production of aircraft equipment, electronics, textile and chemicals. The country is the world's largest exporter of iron and steel goods. The most important industrial cities of Great Britain are London, Birmingham, Manchester, Glasgow, Liverpool, Leeds, Edinburgh.

#### Traditions and customs in Russia

There are many different traditions and customs in the world today. Most of them are, as a rule, connected with different countries' religion, history and culture. No doubts, they play an important role in the lives of various nations.

Being one of the most important links connecting the past, the present and future of many nations, these customs and traditions help them to keep up their originality and bring up their children to love their motherland and respect their religion, history and culture.

The ways, different nations celebrate various holidays and some important events in their lives, reveal their national character, the way of their life, their customs and traditions. Almost all people in the world are proud of their national traditions and carefully keep them up.

Russia is no exception. It is a unique country with old and rich cultural traditions. Foreigners from all over the world who come to our country are greatly interested in our history and culture, traditions and customs. For most of them Russia is a great and beautiful country. They are strongly impressed by our people's broad character and hospitality. In their opinion, our people are strong, brave and generous.

The Russian Federation is known to be one of the most reading nations in the world. The population majority is fond of learning and reading. And this is a very essential factor for any nation.

Russia is a multinational, multi-confessional and multicultural state. More than 150 different nations, ethnic groups and nationalities live on its enormous territory. They, naturally, differ from each other in many ways. And, of course, they have different traditions and customs. But these differences can not be an obstacle for their friendship with all the other nations and for our country unity.

People in our country are fond of various holidays, celebrating them with real Russian hospitality, lots of presents and heaps of food. And, of course, they invite to their places many relatives and friends.

Russian holidays present a colourful picture: religious and secular, new and old, official and unofficial, private and professional. Among our religious holidays there are such as: Christmas, Easter, Holy Trinity and some others. The most known state holidays include New Year's Day, Women's Day, Victory Day, Constitution and Independence Days. We also celebrate such professional holidays as Teacher's Day and Day of Knowledge, Builder's Day and some others. As to our private holidays, they comprise birthdays, wedding days, anniversaries, etc. All holidays have their special customs and traditions.

One of the most popular and favourite holidays with the Russians is **New Year's Day**. Although the tradition of celebrating this holiday is very old, in Russia people began celebrating it by the Order of Peter the Great. On the eve of this day all people in our country get ready to see the New Year in. They decorate their homes with New Year trees and coloured lights. At midnight they listen to the Kremlin chimes and the President's congratulations, drink champagne. They exchange presents and good wishes, listen to music and dance, sing their favourite songs, eat a lot of tasty things and make merry. As for our children, they are eagerly waiting for Father Frost to bring them presents.

**Russian Christmas (Nativity)**, one of the greatest and most important religious holidays, is celebrated on the 7-th of January to glorify the birth of Jesus Christ. On this day many people in our country attend the church services. At home they celebrate this joyful holiday with their families. In the evening groups of children go from house to house, sing the Christmas songs (kolyadki or carols) and get presents in exchange.

Seeing **the Old New Year** out is one more popular tradition with the Russians. This holiday is celebrated on the 14-th of January. It is not an official holiday but many people carefully keep it up. On this day they drink champagne, sing songs, dance, make merry and tell fortunes.

### Задания к практическому занятию

#### 1. Read and translate

Each society in the world has its own cultural traditions that identify their heritage and makes them uniquely different. But some people, especially those new to a foreign country expect the locals to act and behave as they do.

Like language, cultural traditions identify a person's heritage. Cultural traditions and customs are ingrained in a person. They are practices and beliefs that are learned since birth. Thus, people from another country should not think that what they consider sensible and polite behavior, facial expressions, hand gestures, and cultural practices in their country are perceived similarly in another.

In order not to be considered disrespectful or rude when you're visiting another country, learn some of the unique cultural traditions and customs around the world.

#### 1. Choose the Flowers You Give to a Russian

If you have Russian business associates or friends, be careful of the flowers you give them. Avoid flowers with yellow colors as they represent a break-up of a relationship or deceit. Red carnations are taboo as well because these are flowers presented to veterans who survived the war and on the graves of those who have left this earth.

#### 2. Be Careful of What you Give to Chinese Colleagues

While China has opened its doors to the West, the cultural traditions of the Chinese will never be erased. They are one of the oldest civilizations in the world, so you have to understand that their cultural traditions were developed for millennia and handed down from generation to generation. The majority of the Chinese are superstitious as well and attach meanings to various things. When presenting your Chinese friends with flowers, avoid using white, which they associate with ghosts and death.

Other things that are not good gifts for the Chinese are:

- **Clock.** Its name in Chinese (sòng zhōng, meaning send clock) sounds like sòng zhōng or funeral rite. It is also taken to mean that *time is running out*, or *life and relationship can end*.
- **Handkerchief.** –In Chinese, it sounds like a farewell greeting.
- **Umbrella.** Offering or giving your Chinese friend or colleague an umbrella is a subtle hint of ending a relationship. You can share your umbrella but you have to take it back with you.
- **Gifts that come in sets of four.** The number 4 is associated with death.
- **Straw sandals, shoes.** It is also taken to mean that you want to part ways.
- **Green hat.** Green is considered lucky by other people because it is the color of money. For the Chinese however, a green hat means that the wife is being unfaithful.

#### 3. Don't Ask for Salt When Dining in Egypt

In many cultures, like the United States, it is all right to ask for salt to add to your food. But if you are dining with friends and colleagues in Egypt, keep in mind to avoid asking for salt. It is taken as an insult to the host, as Egyptians take it to mean that you are repulsed by the taste of the meal served to you.

#### 4. A Question of Being Punctual

The value of being on time depends on the country. In **Venezuela**, it is actually a norm to arrive about **10 to 15 minutes late** for a dinner invitation. Being early for the Venezuelans means the person is either overly eager or greedy. **Americans** are a stickler for **punctuality**, just like the **Germans, South Koreans** and the **Japanese**. It's incredible how in **Malaysia**, being five minutes late (which can actually extend to 60 minutes) is **acceptable** and you do not need to apologize, too. What's extreme is how meeting at the exact time is immaterial in **Morocco**, where it is totally **all right to be late for an hour or an entire day!** It's fine for the Chinese if you are late for 10 minutes while Mexicans and Greeks will excuse you if you arrive 30 minutes after the appointed time.

#### 5. Mind your Table Manners in Norway

In some cultures, it is acceptable to eat food with your bare hands. But as etiquette would have it, it is often required that you use utensils such as a spoon and fork, chopsticks, or spoon, knife and fork when having a meal. Be sure to brush up on how to eat with a knife and fork before you travel to **Norway**. In this Scandinavian country, even **sandwiches** are eaten using **a fork and a knife**.

#### 6. “No” to Sharp Objects

The cultural traditions of the Netherlands and China are vastly different. But in one thing, they are very similar and that is in the receiving gifts that are pointed and sharp, such as scissors and kitchen knives. Do not forget this – giving pointed and sharp objects to your friends or colleagues in the Netherlands (and in China) is a big no-no. For the Dutch, sharp objects are considered unlucky gifts, while for the Chinese, it means you want to break or cut ties with them.

#### 7. Losing a Tooth in Greece

For many cultures, children are told to keep their baby teeth under their pillow and the Tooth Fairy will give them money in exchange for their teeth. But Greek children are told to toss their tooth onto their roofs. The cultural tradition is meant for the child to have a healthy tooth as well as good luck to the family.

#### 8. Say Cheers BUT Don't Clink Glasses in Hungary

It's almost customary when sharing a drink especially when there is a celebration to say cheers and clink your glasses. But the traditional practice is not done in Hungary. You see, Hungarian forces were severely and savagely defeated during their war with Austria in 1849 and they witnessed Austrian generals celebrating the occasion by drinking beer and clinking their glasses. Hungarians swore not to clink their glasses when having a drink for 150 years. The vow ended in 1999 but a majority of Hungarians continues the cultural tradition.

#### 9. Choose the Right Occasion to Discuss Business in Bolivia

If you are in Bolivia to discuss business and your time is limited, it will still be considered rude to discuss business during a dinner party or any social occasion. Bolivians believe that a dinner is for improving personal relationships. If you are invited to a business lunch or dinner, do not bring up the topic of business on the table, unless your Bolivian host is the first to bring it up. Otherwise, simply savor the meal and foster better relations with your Bolivian host by talking about family.

#### 10. Don't Try to "Go Dutch" in Turkey

In some cultures, it is acceptable to split the meal tab even if the lunch or dinner is given in your honor, but this is not acceptable when you are in Turkey. Offering to pay for half of the meal is considered polite, but your host will be offended if you insist. It is all right to reciprocate by inviting your host to a follow-up meal so you can have your turn to pay for the lunch or dinner.

#### 11. Avoid Using Red Ink for Writing Names of Your Friends in South Korea

Pen inks come in a wide array of colors and sometimes it is fun to use them to make colorful doodles, drawings and whatever. For some people, it does not matter what ink color you use to write their names with, as long as their names are spelled correctly. For **South Koreans** however, you can use other colors **except red** because for them red ink **symbolizes death**.

#### 12. A Trip to the Sauna in Finland

For many people, going to the sauna is a personal thing. A trip to the sauna is a favorable way to relieve stress and relax. It is also one way to socialize. The Finns think the same way, but if your business client or counterpart **invites you to the sauna after your meeting**, do not be alarmed. This *means that your business meeting is successful*.

#### 13. Where Do You Sit When Taking a Taxi?

In movies and pictures, it is customary to see people taking a ride in a taxicab sitting in the back of the vehicle. Your Etiquette 101 class might have taught you that it is the proper way to ride a taxi if you are the only one in it. But in **Australia**, it is considered snobbish to sit at the back. Australians often sit in front with the taxi driver.

#### 14. Greeting a Magpie on its Own in the UK

In many parts of the United Kingdom, it is customary for people to greet a lone magpie to avoid having bad luck.

#### 15. Birthday Greetings in the Netherlands

You would not feel lonely when you celebrate your birthday in the Netherlands. In this country, it is a tradition to greet the person celebrating the birthday as well as the person's family and other relatives.

#### 16. Greeting People in Japan and Germany

When you're in Germany and invited to a gathering, it is a tradition to shake hands with everyone in the room. You even have to shake the hands of children present. Greeting and thanking someone in Japan involves bowing. The depth of the bow depends on the social status or age of the person you are greeting. Giving a person a kiss on the cheek is a customary greeting in Argentina. It is customary for friends in Brazil to exchange around three cheek kisses. In France, the cultural tradition of giving a kiss on the cheek depends on the region. However, in Brest, it is acceptable to give a person a kiss on one cheek. In Toulouse, you can kiss both cheeks. In Nantes however, it's all right to give four kisses on the cheeks.

#### 17. Finger-Pulling in Austria

You might wonder when you see Austrian men engaged in finger-pulling. It is actually a serious traditional sport and the rules of the game are quite strict. The game is called **Fingerhakeln** (finger-pulling), which is like a mini version of tug-of-war. The objective is the same, to drag the opponent by the finger across the table. Bavaria also plays this sport.

#### 18. The Dangers of Remaining Single After Age 25

In some cultures, it is a tradition for families to marry off their children at a very young age. In Germany for example, a person who's still single at age 25 is showered by friends with cinnamon powder throughout the day. Over in France, people buy funny hats for their 25-year old single friends on November 25, which is Saint Catherine's Day. In Germany, when a person reaches 25 and is still single, friends will string socks from the celebrant's home to the birthday party venue, with stops after a few socks while friends encourage the birthday celebrant to have a drink.

#### 19. Shoving your face on your birthday cake

In live action and animated films, shoving one's face onto a birthday cake elicits a laugh. Some do it as a joke and some do it out of disgust or anger. But in Mexico it is a cultural tradition, so the birthday celebrant does not have any reason to get angry. It even follows a process. The cake is brought out and presented to the person celebrating the birthday. Guests sing the birthday song and the candle is blown. The birthday girl or boy takes a bite of the cake and as expected, someone will definitely shove her or his face on the cake.

#### 20. Wife-Carrying is a Competitive Sport in Finland

Who would believe that carrying your wife would be considered a sport? In Finland, wife-carrying or *eukonkanto* in Finnish is even an endorsed sport and couples from other countries travel each year to Sonkajarvi to participate in the activity that started in the 19th century. Since 1992, it has been called the **Wife Carrying World Championships**. The prize is beer, with the amount corresponding to the weight of the wife. Since 2005, the game has been held in other countries, such as Australia, United States, United Kingdom and Asia.

#### Language Services To Help Bridge Cultural Barriers

Cultural traditions differ from country to country and visitors from other countries are often bewildered by them. While they can be quite fascinating, it is best to read up on the cultural traditions of your destinations so you can avoid committing cultural gaffes. If you're traveling for business, you might need translation and interpreting services. If you do, we're here to help.

#### College

All high school children face the problem of choosing their future profession. Before graduating from school they decide which college or university to enter. To pass entrance exams is a real challenge for young people. It requires hard intellectual work and lots of effort.

At college students start studying a number of new subjects, which are more sophisticated than those at school. They should get accustomed to the new timetable and new rules. Very often the work load at colleges and universities is difficult to cope with. First year is the most challenging. However, once they catch up with the program, things get easier.

Besides, college life is worth experiencing. It's a whole new world, where students learn new social and professional skills. Apart from daily studying, they meet lots of new people, find like-minded people, and establish lifelong relationships.

Students also get to participate in different events and parties. One of the most important things, while studying at college, is to establish good relations with teachers and group mates. At first, it may seem that there are no common interests, no topics to discuss, but after certain time of studying together, students become good friends.

Most people later say that university or college years were the best in their life. They also say that if they could go back in time, they would participate more in social events, such as concerts, sports competitions, quizzes, etc.

#### 1. Read and translate text:

Our amazing planet is mysterious and extraordinary. It is full of unique phenomena and mysteries. Every day nature pleases us with beautiful sunsets, autumn cobwebs, and a starry sky. Someone enjoys the morning dew, others breathe the frosty air while admiring the white canvas of hoarfrost. But often nature amazes and makes admire such phenomena that literally fascinate or, conversely, induce terrible fear.

You can observe various natural phenomena in different places on Earth. For example, aurora can be seen in the Northern Hemisphere. For the first time the northern lights saw the Scandinavian peoples, deciding that this is a manifestation of the wrath of the gods. In fact, the aurora has an electrical origin. Millions of charged particles collide in air molecules thereby forming a glow. Thanks to oxygen, light is reflected in yellow, green, red. Blue and purple are formed with nitrogen.

Rainbow is the most joyful and amazing phenomenon of nature. A rainbow can be observed immediately after a rain, in the form of reflection of sunlight in water droplets that remain in the air after a rain. The light is refracted and gives us seven colors: red, orange, yellow, green, blue, blue, purple. Rainbow is also double.

The inhabitants of the earth very often can observe an amazing cosmic phenomenon - star rain or stargazing. If you look at the sky, we will see a lot of luminous points that fly from top to bottom towards our planet. During the flight, these points, like her small stars, leave behind a trail of luminous stripes. They do not reach the earth, and burn in the atmosphere in the form of a bright flash. In fact, as scientists explain, falling bodies are not stars, they are meteors. Meteor rain is formed annually during the collision of the Earth with the cosmic flow of meteor particles.

The nature of matter

Everything around us consists of matter: a book, your body, the air you breathe, and the water you drink. Matter is anything that has weight or mass and takes up space.

All matter may be classified as either solid, liquid, or gas. Solids are firm and have a definite form. Rubber, wood, glass, iron, cotton, and sand are all classified as solids. A considerable force would be needed to change the shape of volume of an iron bar, for example, because the atoms or molecules of a solid are densely packed and have very little freedom of movement.

Solids may be further divided into 2 classes: crystalline and amorphous. Crystalline solids (rocks, wood, paper etc.) are made up of atoms arranged in a definite pattern. When these solids are heated, they change to a liquid, known as melting, is sharp and clear. In amorphous substances (rubber, glass and sulfur), the pattern of the atoms is not orderly, and when heated, they gradually soften.

Liquids are not rigid. The atoms or molecules of liquids attract each other and thereby enable liquids to flow. But these atoms are loosely structured and do not keep their shape. Therefore a liquid will take the shape of any container in which it is poured, however, liquids have a definite volume: a quart of milk cannot fit in a pint container.

Gases, such as air, oxygen, and carbon dioxide, have no fixed shape or volume of their own. They diffuse or spread out to fill any container. The atoms or molecules of gases are widely spaced and move very rapidly, they either compress or expand to adapt to any area.

«Environmental problems»

In recent years the environmental problems have become extremely urgent and received a great publicity. In some way they are the result of scientific and technological progress of the 20-Th century. But people also do a lot of harm to nature because they don't understand that the man is the part of environment. The relationship between man and nature has become one of the most vital problems facing civilization today. Pollution of water and air is one of the problems millions of people are concerned today. Acid rains, unsafety of nuclear and hydraulic power stations, radioactive and other poisonous materials, disposal of wastes became the global disasters. Cars are one of the most harmful and dangerous polluters of air. In more than a hundred towns and cities the concentration of harmful substances in the air and water is over 10 times the admissible level.

The big rivers — our main water sources are fully polluted with industrial and communal wastes — the result of side — effect in the work of giant factories and plants. Water is not suitable for drinking. Another problem is presence of dangerous radioactive military objects. Besides we must remember about ozone holes over our heads. The ozone layer doesn't protect us from dangerous ultraviolet rays anymore. They get through the atmosphere causing skin cancer and other diseases. All these facts make us become more sensitive towards the environment. The trouble is that our local powers don't realize enough the danger of the situation and don't pay much attention and money for construction of cleansing enterprises. Various public organizations and unofficial movement make their best to change official and public opinion on the environmental problems. One of the most famous and strong organizations nowadays is «Green peace». I suppose the solution of the problem requires the cooperation the people's efforts in nature conservation.

#### Environmental problems

The problem of ecology is very important today, because we live in a polluted world. People all over the world discuss environmental protection, but they still continue to pollute air, water and soil. Plants and factories are being built near rivers and lakes. The water is full of industrial waste and this kills animals, insects and plants.

There are some organizations that were created to protect our nature from pollution. The most famous organization is Greenpeace. It protects animals from dying out. There are special farms and organizations that help wild animals to survive. People who work in such places feed animals and cure them. There are several types of pollution: air pollution, water pollution and soil pollution.

Air pollution is caused by different means of transport in big cities. Our cities are full of smog because of heavy traffic and people notice that it is hard to breathe there. Cars, buses and planes are among the worst air polluters. Factories and plants also pollute air pouring harmful gases and smoke into the air and that causes lung diseases among people and does harm to our health. Acid rains that appear because of air pollution damage forests and soil.

Water pollution is another dangerous kind of pollution. Factories and plants throw wastes into rivers and lakes making them dirty. Animals die when they drink this water, people get sick when they swim in it and eat fish that live there.

Soil pollution stops plants from growing and makes people sick when they eat fruit and vegetables grown on polluted soil. People also pollute soil by leaving litter on it. Forests are full of used bottles, wrappers and cans. Such litter can be found in rivers and lakes, too. Wild animals get sick and die because of this.

Every day we throw away a lot of litter. However, we can use it again, for example paper, cloth, glass, plastic, etc. Everybody must know the three R's: Reduce, Reuse and Recycle. We can reduce the usage of water and electricity. We should reuse whatever we can, for example, plastic bags, paper, cans, glass and bottles.

It is not possible to stop technological process, close factories and plants. People need to invent new waste free technologies that will not do harm to nature. There are new inventions such as filters that make water and air clean. Some factories and plants have started using these machines already and this helps to prevent pollution. Special kinds of gasoline for cars can help to reduce air pollution.

We must not ignore the problems of environmental pollution and try to make everything possible to reduce if not stop it.

Scientific progress.

### Теоретическая часть

Английский язык. 11 класс: учебник для 11 общеобразовательных организаций: базовый уровень / О.В. Афанасьева, Д. Дули, И.В. Михеева и др. стр. 102-103

«Scientific progress».

It's difficult to overestimate the role of science and technology in our life. They accelerate the development of civilization and help us in our cooperation with nature. Scientists investigate the laws of the universe, discover the secrets of nature, and apply their knowledge in practice improving the life of people. Let's compare our life nowadays with the life of people at the beginning of the 20th century. It has changed beyond recognition. Our ancestors hadn't the slightest idea of the simple things created by the scientific progress that we use in our every day life. I mean refrigerators, TV sets, computers, microwave ovens, radio telephones and many others. All these things would seem miracles to them –for us they make our life easy, comfortable and pleasant. On the other hand, the great inventions of the beginning of the 20th century, I mean radio, airplanes, combustion and jet engines have become usual things and we can't imagine our life without them. A century is a long period for scientific and technological progress, but at the same time it's rather rapid. Millions of investigations, the endless number of outstanding discoveries have been made. Our century has had several names that were connected with a certain era in science and technology. At first it was called the atomic age due to the discovery of the splitting of the atom. Then it became the age of the conquest of space when for the first time in the history of mankind a man overcame the gravity and entered the Universe. And now we live in the information era when the computer network embraces the globe and connects not only the countries and space stations but a lot of people all over the world. All these things prove the power and the greatest progressive role of science in our life.

But every medal has its reverse. And the rapid scientific progress has aroused a number of problems that are a matter of our great concern. These are ecological problems, the safety of nuclear power stations, the nuclear war threat, and the responsibility of a scientist. But still we are grateful to the outstanding men of the past and the present who have courage and patience to disclose the secrets of the Universe.

#### Задание к практическому занятию

##### 1. Read and translate

It is rather important for everyone to make the right choice of profession, because what we choose defines the largest part of our life. If someone chooses to be a teacher, he or she will spend most of the time dealing children. Those, who choose to become doctors, spend most of their adult life helping people to cope with various diseases. I chose to discuss different matters and argue about them.

Basically, I want to become a lawyer. On daily basis I like investigating, finding out the truth, arguing and winning. So, people who know me well, agree that I would make an excellent lawyer. In my opinion, justice is valuable in modern world. That's why this profession is rather demanded and respected in every country.

To become a qualified professional I should enter a decent Law school. My parents have found vocational law courses for me, where I will be studying for the next two years. After that I can either start working at the Investigation Department or continue studying at the university to become a legist or attorney. I would prefer the second option, because I really want to work at court and to deal with criminal charges.

As I've mentioned before I like investigating the cases and detecting the truth, so the profession of a lawyer seems to be suitable for me. Apart from that, I think that such legal professions are highly respected in the society. In my opinion, each lawyer should look smart and neat. That's one of the main reasons why people look up to these professionals and trust them.

Today a good lawyer is of great demand, so I hope to become one someday.
